“You Were Born Into the World From the Drum of Your Mother’s Heartbeat.”
Mandy Okonok

Tanagidan Winyan (Tanagidan Winyan) is a Dakota/Ojibwe author and plant medicine woman who attended Metro State University as a non-degree seeking student. Her new book, “Paint My Dakota Red,” printed by We Are Capable Press, is expected to be released later this year along with two animations. Perron has four Dakota language books and two Dakota comics currently being illustrated that will be published by Dakota Lapi Ohki-dakíčhíye Chiyi.

Growing up in Saint Paul, speaking primarily English, the words of Perron’s elders were spoken in Dakota. Perron first learned the Dakota language intuitively through the words of her mother and grandmother. In the study of linguistics, the words mother and father are the most common roots of all languages. Family is where our first words and stories originate. Perron’s literature tells the past and present story of her family through the language that honors and re-people their stories.

In Dakota, through the words of her mother and grandmother, she learned the Dakota language intuitively non-verbally and expressed through a spiritual connection to the earth. “I thought of trees like my grandmother. And I started to think of the plants like my elders. They don’t speak to you verbally. But there’s this silent connection that’s peaceful and calming. Sometimes we don’t always need to hear advice, sometimes we just need to feel the reminder there are things watching out for us. And these spirits are here surrounding us. And they love us. And they are here for us, and that relationship needs to be a sacred circle,” Perron explained.

Perron’s work can be purchased locally at Birchbark Books and The Native Trading Post located in the Old Day’s building in Minneapolis. For more information on our resident Dayton’s Bluff poet laureate visit bluehummingbirdwomen.com. Find Perron’s poem “Heart Warriors” on page 2.

A Great East Side Get-Together

Art in the Hollow Set for June 4

Benjamin Mason

Rain or shine, our summer will be kicked off with the East Side’s largest free art festival on June 4. Art in the Hollow has been cancelled or delayed the past two years, but the expectation is that this year’s festival will be bigger and involve more artists and performers than ever. The festival has always been held in Swede Hollow Park, in an effort to help St. Paulites find the hidden bike and pedestrian paths and lush woods of the big park. This year’s theme leans into the festival’s hidden nature: “Come find the best hidden art festival in the Twin Cities!”

Visitors can start at the Hamm’s Brewery parking lot and wind their way through the St. Paul Brewing patio and the old brewery ruins down into the park. It’s a path that’s usually only available to city staff and vandals, but for the duration of the festival, any respectable citizen can wander through without jumping the fences or using bolt cutters.

Visitors will be rewarded for their journey with a verdant park filled with 100 artists and two stages of performers. Art in the Hollow hosts artists of every kind, at every level of experience. It will be easy to find artists local to your East Side neighborhood. Many will be centered around the Swede Henge sculpture and our Central Stage, but you will be able to follow a path sprinkled with art and a Story Stroll from the Saint Paul Public Library all the way down to the historic 7th Street Bridge. There, you will find the South Stage and a good group of artists hosted by the TAP and Urban Journal.

If this seems like a lot of walking, there will be a lot to make it worthwhile. Golf carts will run for those who need a break from their feet, but still want to see it all. For those who enjoy the walking, there will be food trucks, pizza, and pints at the St. Paul Brewing Patio ($2 off pints for festival goers), and plenty of reasons to keep exploring.

This year’s festival will be joined by the Outdoor Painters of Minnesota, and there will be a plein air painting event during the festival, open to everyone! Paintings will be juried by local artist Tom McGregor, and one winner will receive a $50 gift certificate to Wet Paint. These paintings will have a second act in July, as they will be featured at the local gallery Art@967 Payne.

Art in the Hollow is also a good place to touch base with your community. You can learn more about local history, your city parks, and numerous organizations from the East Side. This will be a chance to celebrate the beginning of summer in Swede Hollow Park.

“Heart Warriors” Continued from Page 1

Foreword by Mandy Olson

Tara Perron

From the woman who penned the first Dakota language poem to become perma-
nently printed onto a Saint Paul sidewalk, “Heart Warriors,” there’s wisdom in si-
ence, the natural break in storytelling season where we need to listen and not speak.

Perron kindly shared her work with the Forum in both Dakota and English.

Chanté Waditača Thokáta wichičhejage kín, Tókhetu ḥuŋ̱ān ṣíŋi kıŋháŋ dę ahbëda;
Wachùngčiŋčiyapí, Waŋiŋčiŋčiyapí, Waŋiŋčiŋčiyapí, Waŋiŋčiŋčiyapí, Náŋkāi wóŋiŋčiyapíkanapí.
Chanté waničitača! Náŋkāi, niḫabak naŋiŋčiyapí!

Translation:
Heart Warriors
Grandchildren of the future:
When times are uncertain please know this.
We prayed for you,
we danced for you,
we sang for you,
we planted seeds for you,
and we spoke for you!
Your heart is strong!
And now, we stand behind you!

BONUS CHECKS

Coming For Frontline Workers Who Went to Work During Deadly Pandemic

Senator Foung Hawj said that the Senate approved $500 million in long-await-
ed bonus checks for 667,000 Minnesota frontline workers—including thousands of workers in St. Paul—who got the state through the past two years of a deadly pandemic. The measure, which at the same time replenishes the state’s Unemployment Insurance (UI) Trust Fund, also passed in the House and was quickly signed into law by Governor Walz.

Sen. Hawj said the legislation will send $750 to Minnesotans working in health care or long-term care facilities, child-care workers, grocery store staff, and retail employees.

For many months, the Democratic-Farmer-Labor Caucus has been fighting to enact the bonus checks, but their efforts were blocked each time by the Republican majority.

“I fought hard for the frontline workers because they put their health and safety on the line to get us through a deadly pandemic. A word of thank you is not enough,” said Sen. Hawj.

These bonuses reward workers who did not have the op-

portunity of working from home, and their sacrifices got Minnesota through this health and economic crisis. They deserve these bonuses and have waited far too long for them,” Sen. Hawj said that among the front-

line workers eligible for bonus checks are home care and long-term care work-

ers, building maintenance, janitorial and security workers, school workers, food service workers, public health workers, retail workers, hotel and temporary shelter workers, ground and air transportation workers, manufacturing and vocational rehabilitation workers.

How Did It Start?
Karin DuPaul

From time to time we are asked how Friends of Swede Hollow started Art in the Hollow (AITH). We were doing history research, slide shows, walking tours, clean-ups, etc., and having our monthly meetings in a number of different places for years. Around 2008 we started having our meetings in Jim Davidson’s art studio at 506 Kenny Road. At one of the meetings, we were talking about all the beautiful art in Jim’s studio and that led to discussion of how could we get more artists into the Hollow to do their art.

Soon after that, I contacted my good friend Romi, who is a very creative, talented person and got her in the conversations. We started talking about holding an event that artists could both create and/or sell their art. We were so lucky to have Romi work with us on our project.

Our first Art in the Hollow was in 2010. That first year we were lucky enough to have the senior class from Twin Cities Academy choose Art in the Hollow as their class project. They were looking for a project that would help the neighborhood and hopefully would be ongoing. They helped with a lot of the planning and helped out the day of Art in the Hollow.

Friends of Swede Hollow have held Art in the Hollow every year since 2010 (except 2020 and 2021 because of COVID). In September of 2021 we had a smaller AITH on September 25. This year we are back with Art in the Hollow on Saturday, June 4. We are looking for artists! To contact us go to artinthehollow.org or call me at 651-776-0550.

Some St. Paul June Historic Events
Steve Trimble

Here are a few of important, or just interesting, events that have happened in St. Paul over the years. Three of these were on the East Side and others may have had an effect on our community. Hope you enjoy reading about them.

June 1, 1838: Pierre “Pig’s Eye” Parrant made his claim at the site of Fountain Cave this day. The next day he is thought to have erected the first building on the site of what is now St. Paul. He was born in Canada to Metis parents and ended up in Minnesota through fur trading. After quitting the trade, he lived in a squatter’s colony near Fort Snelling where he distilled liquor to sell to settlers, soldiers, and the Dakota. When the squatters were forced off the land in 1838, Parrant made a claim at the entrance to Fountain Cave, built a log cabin and established a saloon in a red brick log cabin and a red brick establishment that was later converted to a church. The parish was in the Railroad Island neighborhood. In 1819, Saint Ambrase Catholic Church was established in a red brick church on lower Payne Avenue on St. Paul’s Railroad Island neighborhood. The parish was in Railroad Island, a neighborhood with many Italian immigrants. In 1954, Father Thomas Pingatore was selected as pastor of Saint Ambrose, a position he held until the church closed in 1998.

June 13, 1926: “Little Italy of St. Paul” turned out on Sunday in force for the Saint Anthony celebration, read the headline in the Pioneer Press on this day. There were two solemn high masses in separate Italian parishes. The first, in the morning, was at Holy Redeemer. The second was at Saint Ambrose Church in the Railroad Island neighborhood. Saint Anthony was celebrated in a red brick church on lower Payne Avenue on St. Paul’s Railroad Island neighborhood. The parish was in Railroad Island, a neighborhood with many Italian immigrants. In 1954, Father Thomas Pingatore was selected as pastor of Saint Ambrose, a position he held until the church closed in 1998.

June 16, 2005: The first Mexican consulate in Minnesota opened at 797 East 7th St. in St. Paul this day. The establishment of this office was a sign of increased Latino presence in the state and the city. The Mexican flag now flies over the 4th consulate in the United States. At the time, 11% of the residents were Hispanic.

June 20, 1992: The U.S. Supreme Court invalitated the city’s Bias-Motivated Crime Ordinance, which prohibited the display of a symbol which one knows or has reason to know “arouses anger, alarm or resentment in others on the basis of race, color, creed, religion or gender.” The juvenile’s defense attorney moved to dismiss the count on the grounds that it was too overbroad and violated his client’s First Amendment rights. The trial court granted the motion, but the Minnesota Supreme Court reversed the decision, asserting that the statute did not “chill speech protected by the First Amendment.” The defense appealed, and the United States Supreme Court heard the case.

June 21, 1990: Just before dawn on this day, a small group of teenagers burned a crudely-made wooden cross in the fenced-in front yard of an African American family living on Earl Street in St. Paul’s East Side. A youth identified as RA V in court records was prosecuted under the Bias-Motivated Crime Ordinance, which prohibited the display of a symbol which one knows or has reason to know “arouses anger, alarm or resentment in others on the basis of race, color, creed, religion or gender.” The juvenile’s defense attorney moved to dismiss the count on the grounds that it was too overbroad and violated his client’s First Amendment rights. The trial court granted the motion, but the Minnesota Supreme Court reversed the decision, asserting that the statute did not “chill speech protected by the First Amendment.” The defense appealed, and the United States Supreme Court heard the case.

June 22, 1992: The U.S. Supreme Court invalitated the city’s Bias-Motivated Crime Ordinance in the RAV v. City of St. Paul decision. The Court concluded, in part, “Let there be no mistake about our belief that burning a cross in someone's front yard is reprehensible. But St. Paul has sufficient means at its disposal to prevent such behavior without adding the First Amendment to the fire.”

Gold Line Bus Rapid Transit is Coming to Dayton's Bluff
Greg Cosimini
Compiled from information on the Metro Transit website
metrotransit.org/gold-line-project

What is Metro Gold Line? Gold Line will be Minnesota’s first bus rapid transit (BRT) line that operates primarily within bus-only lanes. Gold Line will provide frequent, 10–15-minute, all-day service in both directions, seven days a week. The planned 10-mile route is between St. Paul and Woodbury with bus-only lanes being constructed generally north of and near Interstate 94. It will become operational in 2025.

The route through Dayton’s Bluff and the rest of the East Side will be on Hudson Road and Old Hudson Road with construction of several new connecting bus lanes and bridges.

Stations with enhanced amenities: Shelters will provide comfortable waiting space and a variety of amenities: NextTrip real-time departure signs, maps, heat, lighting, bike racks, and enhanced security with cameras and emergency telephones. Each station will actually consist of two shelters, one on each side of the BRT lanes for east and west travel.

There will be two stations in Dayton’s Bluff, located at Mounds Blvd and Third St., and East St. and Hudson Road. The three other St. Paul stations will be at Eina St., Hazel St. and Sun Ray. There will also be a Park and Ride at Sun Ray. It has been determined that two-way traffic can be accommodated on Hudson Road between Cypress and Frank Streets along with parking, east and west of the shelters. This is a change from preliminary plans released earlier.

Specialized buses: Buses will be unique and recognizable with wider aisles and additional doors and folding seats to make room for wheelchairs and strollers.

Construction: Utility construction will begin this spring to update overhead and underground utilities and to level the ground to prepare for new bus only lanes. Work will occur along I-94 from Mounds Blvd to I-694 and along Highway 61 from I-94 to Warner Road. There will be temporary closures on Hudson Road and a temporary closure of the I-94 foot/bike bridge connecting Maple St. and Mound St. Actual Gold Line construction will begin this fall and continue through the spring of 2025. A detailed construction schedule will be released this summer.

For much more information on the Gold Line including detailed plans, videos, and interactive maps, visit metrotransit.org/gold-line-project

Electric Vehicle Program Stretches to the East Side
Allison Lund-Zalewski

Going “green” on the East Side is about to become easier. Over 150 electric vehicles (EV) will be part of a new one-way car-sharing program from the city of St. Paul. Additionally, 70 on-street electric vehicle charging hubs will be built across St. Paul and Minneapolis for on-street EV charging.

Anyone who drives the vehicles that are part of the Twin Cities’ Evie Carshare will be allowed to park the cars on the street anywhere within the 35-mile “home area” that stretches from Minneapolis to the East Side of St. Paul. Evie Carshare, operated by HOURCAR, will monitor where vehicles are left and ensure that they are charged and evenly dispersed throughout the cities for your convenience. Most of the charging ports will be set up for Level Two charging, though some will have a docking area for faster charges. The 70 EV Spot charging hubs each having four spaces to charge four electric vehicles. Two of the spaces are for Evies and two are for privately owned vehicles.

Drivers will need to sign up for the carshare service through Eviecarshare.com or the Evie Carshare app. They must be 18 years old and have a valid license for a year. They cannot have any traffic violations during the previous three years or any drug- or alcohol-related violations in the past five years. Approval of a driver’s application can take one to two business days.

After signing up, users can use the Evie Carshare smartphone app to find cars nearby. Once the trip begins, the driver is billed by the minute. There are additional discounts for hourlong or daylong trips. Rates will vary from 18 to 30 cents a minute, based on the driver’s membership plan.

For more information about the program service or to view the map where the cars will be available, visit eviecarshare.com.

Happening at the Dayton's Bluff Library

Dayton’s Bluff Library, 641 East 7th Street, invites kids and teens to make the library their destination for summer fun and learning. Summer Spark, the library’s summer learning and reading program, encourages kids and teens to stay active and read for fun all summer long with programs, hands-on learning, reading challenges, and book giveaways.

To get started, kids and teens can stop in to sign up for Summer Spark, pick up activity and reading logs, and pick out a free book to keep. Readers set their own reading and learning goals, and library staff are here to help.

Kids ages 7 to 11 can stop in for Fun-Lab every Saturday from 2-4 p.m. Fun-Lab is STEAM programming offering crafts, engineering projects, science experiments, board games, and more.

Families can pick up Take and Make kits that include art, journaling, and crafting supplies for the whole family. Take and Make kits will be available to pick up while supplies last.

Suggested book titles and a calendar of events and performances happening at all Saint Paul Public Library locations can be found at spl.org/summer.

Summer Spark is sponsored by The Friends of the Saint Paul Public Library, Star Tribune, Kare11, MELSA Summer at Your Library and Minnesota Arts, and Cultural Heritage funds.

The outdoor book drop is always open. spl.org 651-793-1699.

- 2 C finely crumbled soft bread crumbs
- ½ C melted butter or margarine
- 1 beef bouillon cube
- 1 C boiling water
- 4 T flour
- 2 C light cream
- 1 ½ tsp. salt
- small pinch pepper

Directions:
Melt the ¼ C butter in skillet; add chopped onion and cook over low heat until tender. Beat eggs and milk together. Lightly mix in large bowl, the ground beef and pork, cooked onion, egg-milk mixture, allspice, nutmeg, the 1 T salt, and the soft, crumbled bread crumbs. Chill, covered, in refrigerator for one hour before shaping into one inch balls.

Heat oven to 350 degrees F. (moderate oven). These meatballs are best baked in a single layer in shallow baking pans. Use two baking pans and pour ¼ C of the melted butter or margarine into each.

Arrange meatballs in pans and bake 30 minutes. Turn meatballs in each pan to brown and increase oven temp to 400 degrees (moderately hot). Bake 20-25 minutes longer, turning meatballs occasionally.

Remove meatballs from pans. Dissolve bouillon cube in boiling water. Add some of the bouillon to each of the baking pans and stir to loosen meat particles. Then combine all the drippings in one saucepan.

In a small container, blend ¼ C of the drippings with the flour. Stir into the remaining drippings, add cream. Cook over moderate heat, stirring occasionally until thickened. Season with the 1 ½ tsp. salt and the pepper. Meatballs may be prepared a day ahead and stored in refrigerator. Heat before serving in a chafing dish or electric skillet.

*I usually make these meatballs in smallest form and serve as appetizer.

I saw a posting on Facebook that a new restaurant had now opened on Arcade. And to my surprise, it was something that was never before seen, at least that I know. It is only the second vegan eatery in all of St. Paul. There are a lot of places that they are vegan friendly, but our community now has a pretty special organization.

I've had vegan food before, but I had never been in a vegan restaurant. So, I went up Arcade Street and found a little bit of a time finding it. It does have a small sign that I finally saw. They had an OPEN sign in the window. Inside was a welcoming, neat medium-sized restaurant with a wood floor and good lighting on a dropped ceiling. There are a few wooden tables with seating for four or five, and two stools along the east windows. There are three original sizeable paintings that were painted by a local artist known as St. Paul Slim. And one of the owners made three original paintings that have been able to keep the paper up and running.

I decided to order the Insane BLT and a Kern’s Mango Nectar produced in Mexico. I was accompanied with a friend who is a vegan and she thought this was a place that made tasty food.

Kevin and Lauren are co-owners and are helped by several family members. They opened in Minneapolis in a large food hall with a slew of people and they decided they wanted their own store front. They live in the East Metro area, so they don’t have to go to Minneapolis every day.

There is street parking but a white metal sign with red words says “Additional parking behind building” with an arrow showing the direction. They take cash and cards but no checks at this time.
